DEMOGRAPHICS & MARKET

MARKET OVERVIEW

The retail market in Orlando has been exceptionally active due to high consumer spending and a steadily increasing population, despite recent economic headwinds. Since the pandemic, Central Florida's tourism industry has witnessed substantial employment growth, thereby strengthening the hospitality sector.

As the most frequently visited city in the State of Florida, Orlando's retail market has exhibited significant expansion and is poised to remain one of the nation's strongest markets as tourist areas continue to develop.

In addition to the tourism industry, Orlando hosts more than 10 million business travelers annually who come to take advantage of the area's strong economic clientele. Orlando ranks second in the U.S. for overall population growth and first in Florida.
